

Byne Meeting Table

Versatile and design-forward, Byn Meeting Tables empower modern teams and adapt seamlessly to both classic and contemporary meeting spaces.

Wire and cable management enhance visual clarity, while multiple customisable leg options make it a cohesive extension to Byn System.

Key features

1. Leg configuration

Available in 4 different leg style options

2. Work surface shape

Two shapes offer two different experiences. Boat offers a more democratic experience during video conferencing; rectangular offers a more traditional meeting space.

3. Wire and cable management

Surface-enabled power access routed through middle leg for clean and centrally located power

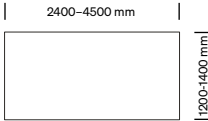

4. Seating capacity

Table configurations range from four people to 16 people

Benefits

- Concealed wire management prevents tripping hazards, protects cables from damage, reduces clutter, and ensures unobstructed leg room.
- With a variety of leg style options, finishes, and veneer options, Byne Meeting Table offers a truly customisable solution to compliment a variety of floorplates.
- Size and shape configurations allow for flexibility in aligning meeting room tables with their unique special layouts and variable team sizes.
- The table complements existing Byne System solutions to create a cohesive floorplate.
